Areas in Poland Closed to Western Diplomatic Travel.

The Polish government has announced about 19 areas from which U.S. representatives will be barred effective 1 April. Most areas appear to have little relationship to prime intelligence targets. An analysis will be made of areas as they relate to adjacent points of intelligence interest, if any.

25X1A [REDACTED] St/CS, indicates that the Watch Committee will be interested in the information. A memorandum will be sent to the Watch Committee through St/CS.
